Philosophy

Since its establishment as a Catholic international school in 1872, Saint Maur International School has been a school community where moral values govern all that we do to help students, parents and staff, reach their full potential. From its inception, the word 'Catholic' has always been interpreted as all-embracing and wide-ranging, implying the acceptance of all, regardless of nationality or religious faith. However, the education offered continues to be based upon Christian principles which focus on enabling one to embrace and celebrate differences and diversity, and through such an appreciation, come to the realization that, as human beings, we have more in common with each other than not. Such an approach has assured good collaboration and a strong sense of true interconnectedness between and among the over forty nationalities represented among our multicultural students and staff of all faiths and nationalities.

Our Values - Saint Maur Essential Outcomes (SMEO)

At Saint Maur, we believe that all students should be engaged in learning experiences which enable them to develop into:

Moral Citizens
Unique Individuals
Global Citizens
Balanced Learners
Lifelong Learners
